

Why Students Lose When Tougher Standards Win: A Conversation with Alfie Kohn

PROFESSIONAL LEARNING
Why Students Lose When They Don't Learn
The students who are the most successful in their learning are those who are the most motivated. They are the ones who are the most interested in what they are learning. They are the ones who are the most curious. They are the ones who are the most eager to learn. They are the ones who are the most persistent. They are the ones who are the most resilient. They are the ones who are the most confident. They are the ones who are the most capable. They are the ones who are the most successful.

The Power of Motivation
Motivation is the key to success. It is the force that drives us to do things that we otherwise would not do. It is the force that gives us the energy and the determination to overcome our challenges. It is the force that makes us resilient in the face of adversity. It is the force that makes us confident in our abilities. It is the force that makes us capable of achieving our goals. It is the force that makes us successful.

The Power of Curiosity
Curiosity is the key to learning. It is the force that drives us to explore new ideas and to ask questions. It is the force that makes us persistent in our search for answers. It is the force that makes us resilient in the face of failure. It is the force that makes us confident in our abilities. It is the force that makes us capable of achieving our goals. It is the force that makes us successful.

The Power of Persistence
Persistence is the key to success. It is the force that drives us to keep going when we are faced with challenges. It is the force that makes us resilient in the face of adversity. It is the force that makes us confident in our abilities. It is the force that makes us capable of achieving our goals. It is the force that makes us successful.

The Power of Resilience
Resilience is the key to success. It is the force that drives us to bounce back from setbacks and to keep going when we are faced with challenges. It is the force that makes us resilient in the face of adversity. It is the force that makes us confident in our abilities. It is the force that makes us capable of achieving our goals. It is the force that makes us successful.

The Power of Confidence
Confidence is the key to success. It is the force that drives us to take risks and to try new things. It is the force that makes us resilient in the face of adversity. It is the force that makes us confident in our abilities. It is the force that makes us capable of achieving our goals. It is the force that makes us successful.

The Power of Capability
Capability is the key to success. It is the force that drives us to learn and to grow. It is the force that makes us resilient in the face of adversity. It is the force that makes us confident in our abilities. It is the force that makes us capable of achieving our goals. It is the force that makes us successful.

The Power of Success
Success is the key to success. It is the force that drives us to keep going and to keep trying. It is the force that makes us resilient in the face of adversity. It is the force that makes us confident in our abilities. It is the force that makes us capable of achieving our goals. It is the force that makes us successful.
