What's Up, Doc? Real, Live Family Practitioners

Dr. Manuel Lowenhaupt strides into the examining room and kicks off his shoes. **"Nice to see you. I think I've met the rest of your family."**

"Eight-year-old Brenda Wilson is a pneumonia, as are all pneumonia patients," he said. "The one in the room is not coughing much, but his breath sounds are still a little wheezy."

Dr. Lowenhaupt looked up from his clipboard and said, **"I've been trying to keep up with the latest medical advances."

"For job today it is to figure out whether this is a virus or a bacteria."

"We're up to date on the current medical literature, and we're also keeping up with the latest medical advances."

"I'm very glad you came in today."

"Let's get started."

"Your name is Brenda Wilson, yes?"

"Yes, sir."

"I'm Dr. Lowenhaupt."

"And I'm Brenda Wilson."
